

## About QCT OEM Solutions

QCT OEM Solutions offer an end-to-end service to help you build world-class software-defined solutions. Our dedicated team of hardware experts will work with you to understand your requirements, customize QCT off-the-shelf products to meet your expectations, and provide a consultation service throughout your product's lifecycle to ensure its stability and continuity .

## QCT Capabilities

QCT has been known as a dedicated hardware innovator and has collaborated with leading independent software vendors (ISVs) in building software-defined data centers (SDDCs). Over time, QCT has formed a comprehensive ecosystem of hardware and software partners to help you develop hardware solutions for critical operating conditions in data centers, as well as to provide cross-solution consultation. With a global reach of manufacturing sites and experience in hyperscale manufacturing, we are able to source and deliver high quality products sustainably all around the world. Through our engineering service offerings, QCT can also work with you to ensure the solutions you deliver achieve excellent stability and compatibility.

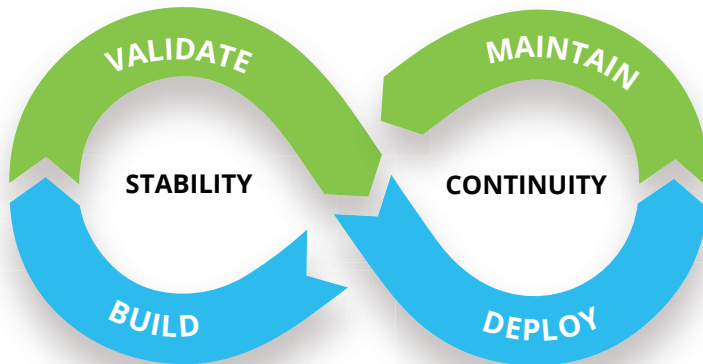

## Engineering Service - QCT Solution Validation and Testing

We can not only help you develop the hardware configuration that works just right for you, but also bring the best performance out of your software. With deep knowledge of hardware-software integration and world-class hardware resources, we can offload your engineering burden and shorten your time to market.

## Engineering Service - QCT System Lifecycle Management

QCT works together with ISVs to deliver outstanding solutions with high stability and excellent compatibility. We offer System Lifecycle Management service to ensure superior system compatibility in the solutions. By doing so, we wish to ease the pain of solution updating and build reliable solutions with you.

## About QCT

Quanta Cloud Technology (QCT) is a global data center solution provider. We combine the efficiency of hyperscale hardware with infrastructure software from a diversity of industry leaders to solve next-generation data center design and operation challenges. QCT serves cloud service providers, telecoms and enterprises running public, hybrid and private clouds.

Product lines include hyperconverged and software-defined data center solutions as well as servers, storage, switches and integrated racks with a diverse ecosystem of hardware component and software partners. QCT designs, manufactures, integrates and services cutting-edge offerings via its own global network. The parent of QCT is Quanta Computer, Inc., a Fortune Global 500 corporation.
